

ACSC 1:1 Initiative

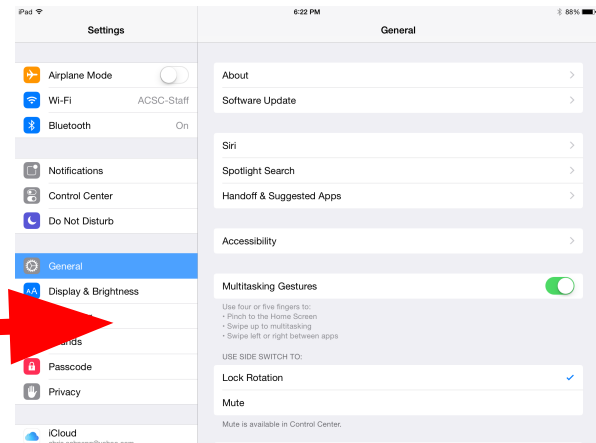

Parent iPad Controls

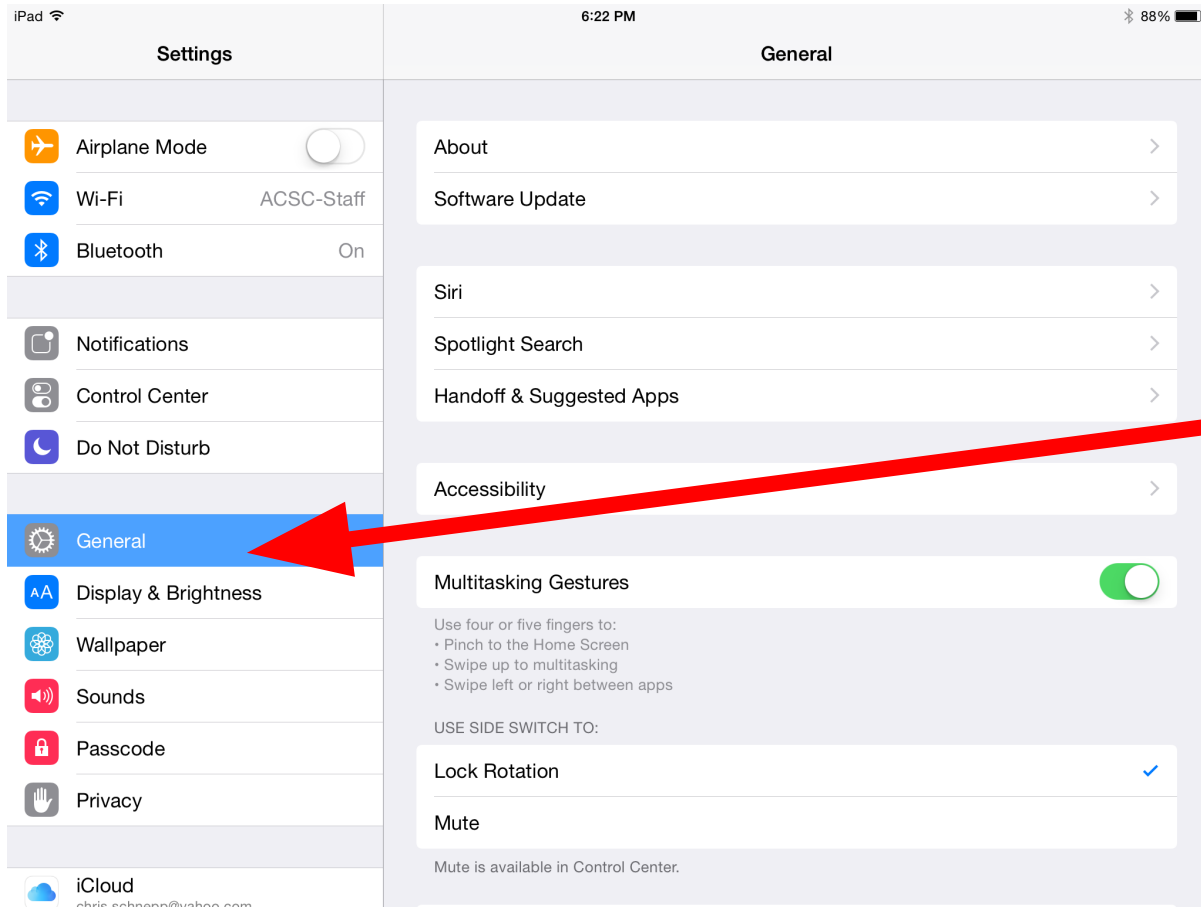

You can turn on Restrictions, also known as parental controls, on the iPad

You can use Restrictions to prevent access to specific apps and features.

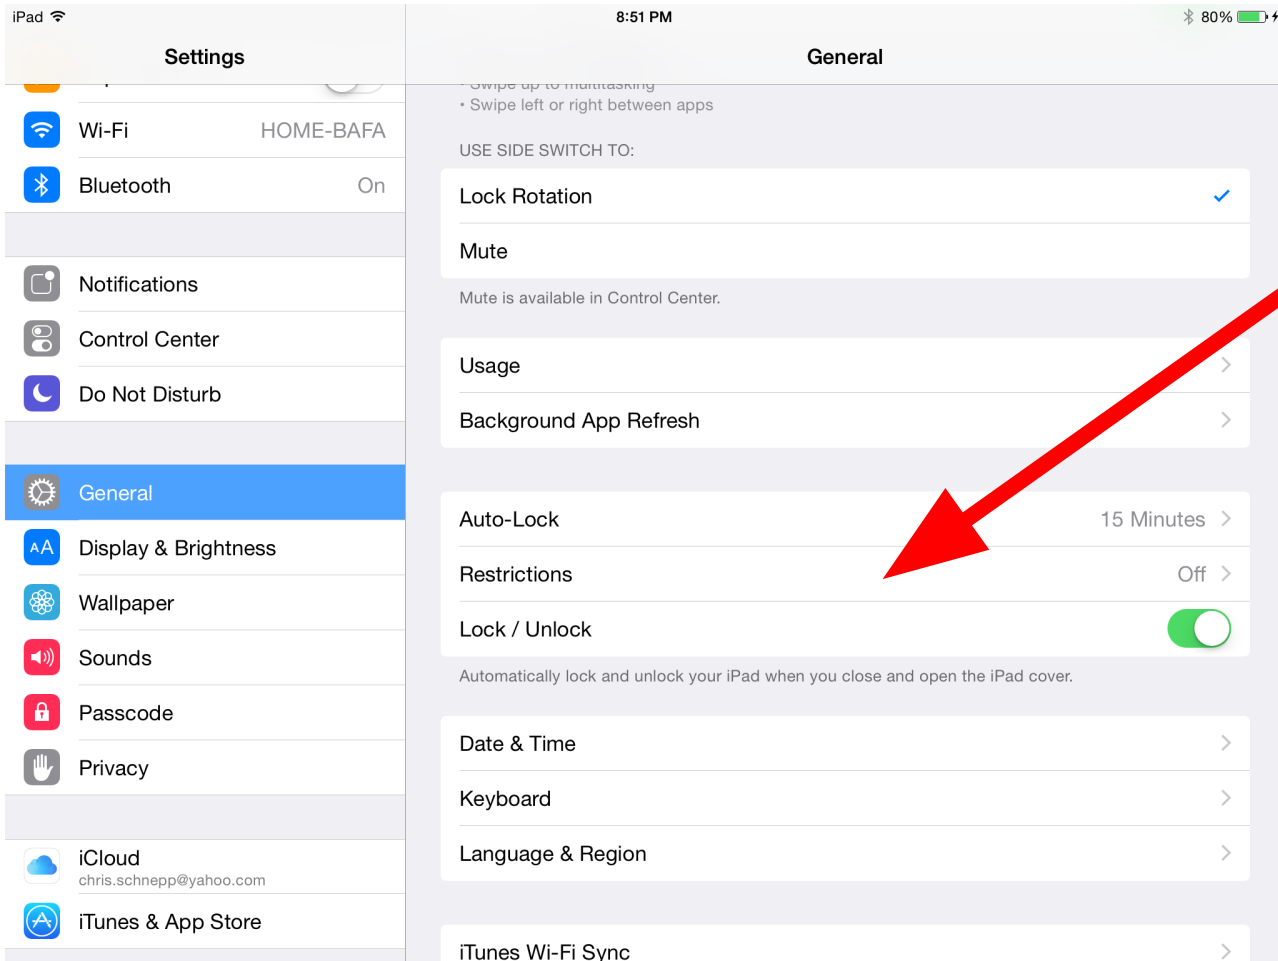

This presentation will help you learn about the types of Restrictions and how to turn them on and off on your device.

First begin by touching the settings icon. You will be directed to this page.

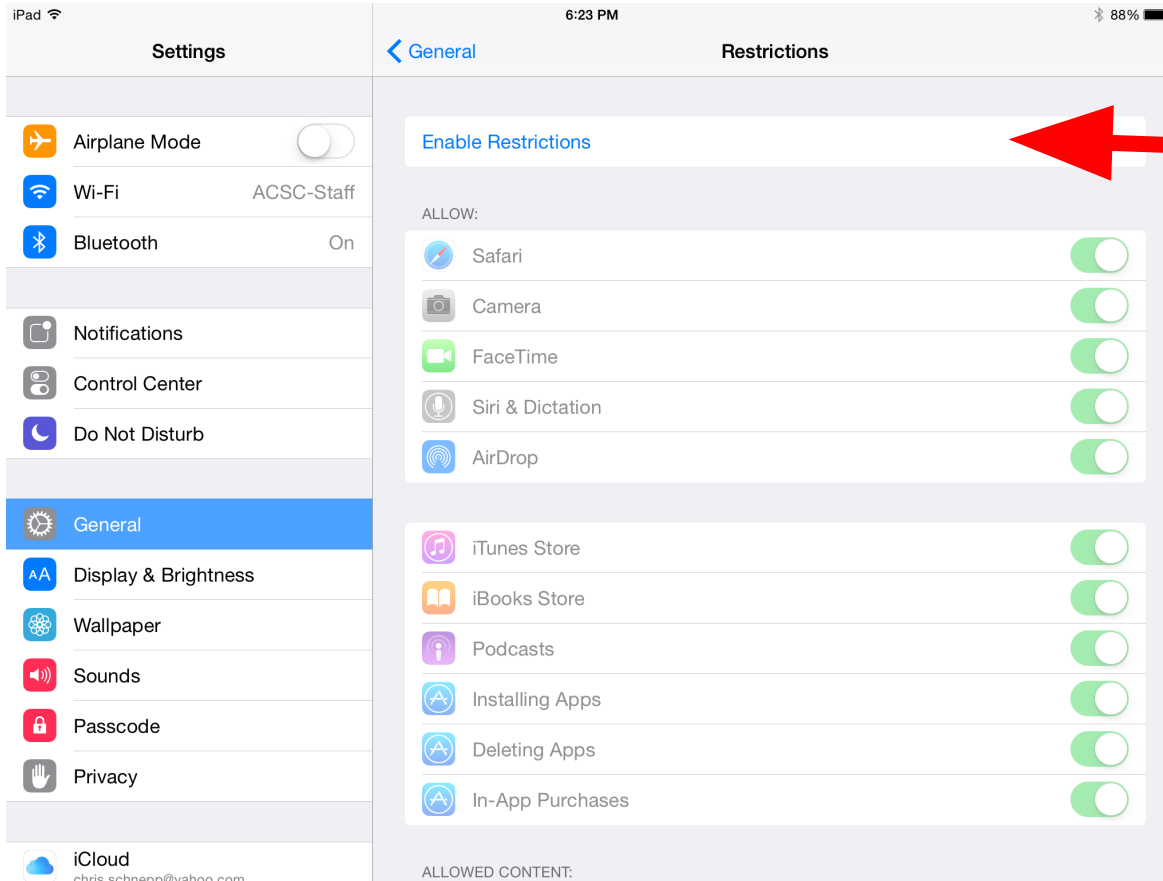

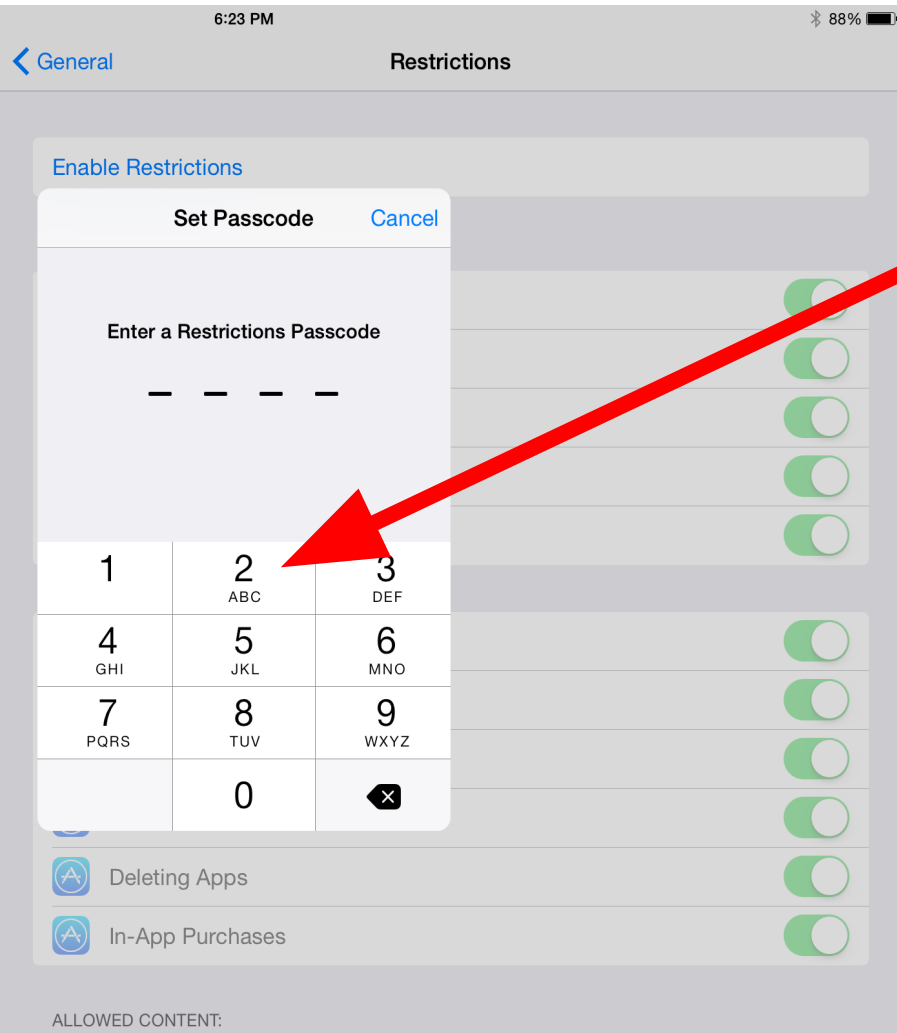

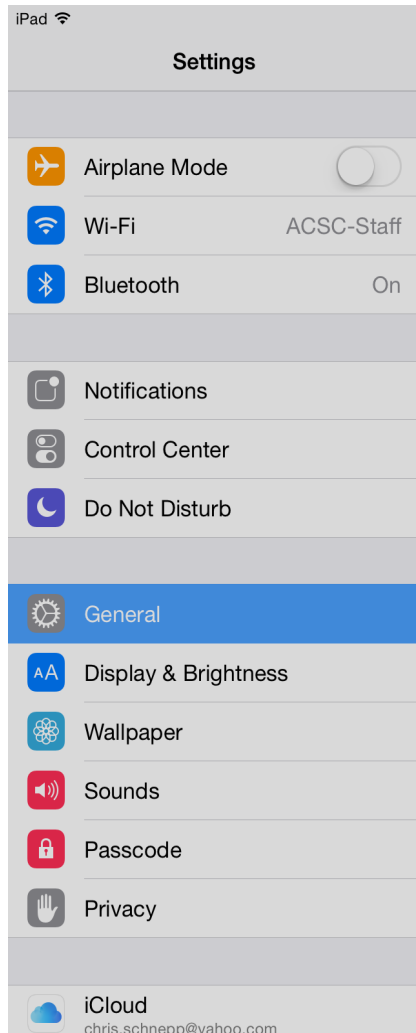

After you have been taken to the Settings page you will need to select General.

Select Restrictions

Select Enable
Restrictions

You will be asked to create a passcode. You must enter a passcode to make restrictions. The student will not be able to alter the restrictions unless they have the passcode. You will be asked to re-enter your passcode.

Below the allow sections with the green buttons you will find allowed content. You will be able to restrict content on these sections.

If you choose to leave buttons on you can still restrict the kind of content students can have access to. For example you can restrict explicit lyrics by turning off the green button. Once turned off the white bar will say clean instead of explicit.

Music, Podcasts, and iTunes U will now be filtered to clean content
